Unique and Innovative

The new teacher and school leader preparation programs at The Educators College will result in an aggressive infusion of well-prepared talent and expertise in teaching and school leadership positions.

Distinctive features include:

- A year-long clinical residency (funded by partners of The Educators College).
- Early, frequent, and varied classroom experience, including post-graduate mentoring with a master teacher.
- A fast-track or accelerated program to acquire a bachelor's or master's degree (8- to 10- semesters). High-achieving high school graduates who enter Marian University with dual credit, AP credit and/or take summer courses may complete the program in fewer than 10 semesters.
- Will study abroad in high-performing schools.
- Will leave Marian University with little or no debt.
- Competency-based master skills of student learning outcomes.
- The Marian University Brand Guarantee: the graduates of The Educators College are supported for one year after graduation and in collaboration with their school, as well as provided with professional development and support if requested.
