**Analysis:**

- All program graduates in the last three cohorts have retained employment in the K-12 educational sector.
- 45% of completers from cohort 12 and 47% from cohort 11 currently serve in an administrative or supervisory role (principal, assistant principal, dean, assistant director, team lead, etc.).

**Interpretation:**

The retention of graduates in the educational sector indicates that the advanced program is helping educators develop leadership skills and the motivation necessary to remain in K-12 education despite the many challenges posed post-COVID and other factors. A significant number have already moved into the roles of school administrator, dean, or instructional coach – roles in which they must effectively exercise leadership.
