

Reference Materials in MAT Library

The School of Education maintains a library for student use that offers hundreds of useful children's books and reference materials. Children's books include many multicultural books, several Spanish titles, and some titles in both Spanish and English. The children's books range from picture books to chapter books for older children. Reference books focus on teaching English language learners effectively, multicultural education, and other topics for pre-service teachers. The library is located in room 005 of Marian Hall. Interns are encouraged to browse through the shelves to select useful materials for use in their placements and in their own coursework. You may check out a book by completing the library form in the file maintained by School of Education administrative assistant Pat Stewart. Just ask Pat for the library folder whenever you want to borrow or to return a book.
