

# 2030 Athletic Funding Priorities

*Marian University's Strategic Vision*

## Investing in the Future of Marian Athletics

From the very founding of Marian University by the Sisters of St. Francis of Oldenburg, the central commitment of Marian has been the development of the “whole person” – mind, body, and spirit. The expansion of athletics programs has been a major force in Marian University’s ability to achieve remarkable outcomes in academic achievement and the creation of a vibrant campus life. Because athletics has been such a powerful source for good, Marian University continues to recognize, celebrate, and invest in these programs. The proposed improvements to St. Vincent Field will positively impact every member of the Marian University community. The master plan includes everything from additional training facilities for student-athletes to enhanced amenities for spectators and alumni groups.

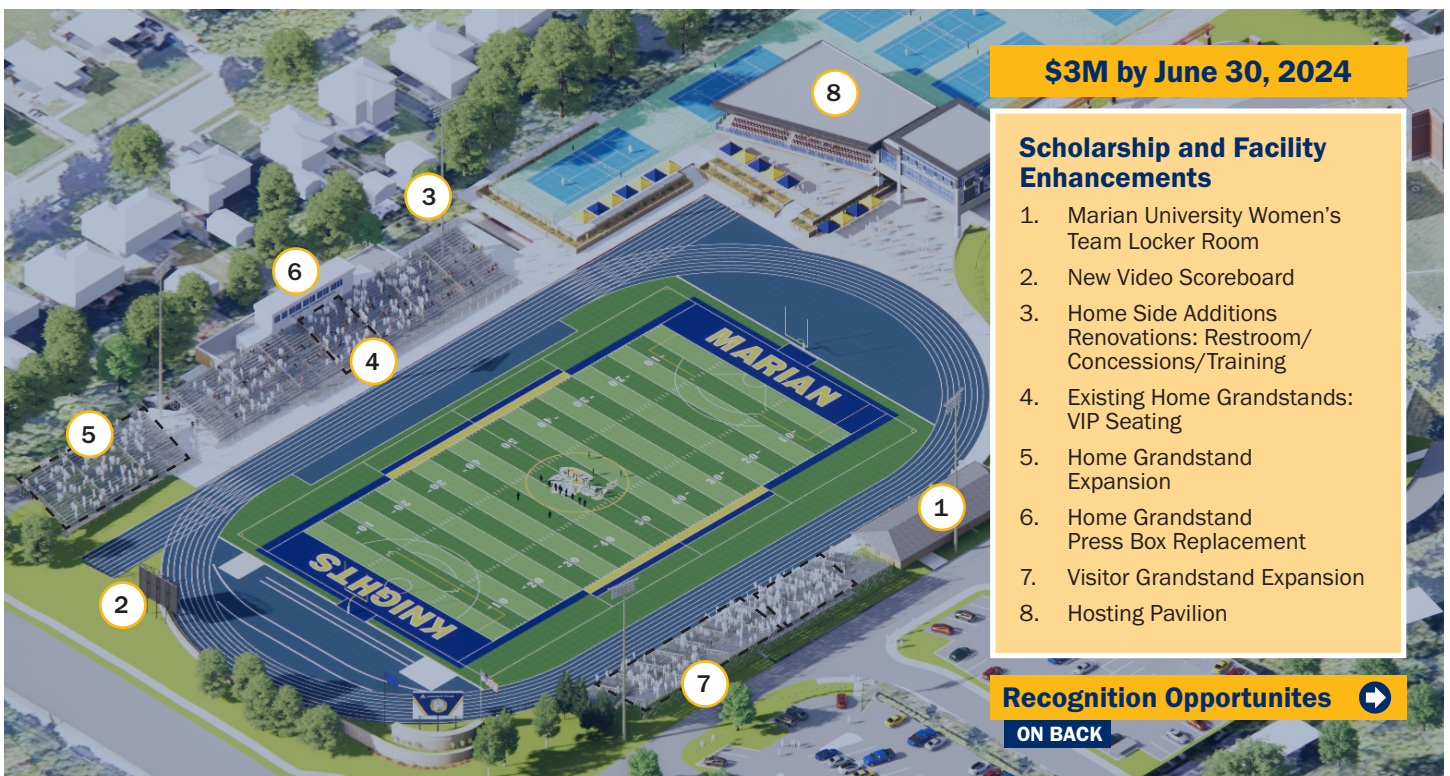

Athletics Strategic Plan Needs = **\$50M**  
(by 2030) for the following funding priorities:

- Scholarships (endowed and annual)
- Facilities/Equipment/Buildings/Amenities
- Programs (training/fitness; strength/intramurals)
- Overall fan experience
