

Nursing and Healthcare

► PREREQUISITES

MARIAN UNIVERSITY

Indianapolis®

Marian's Adult Programs

Prepare for the challenges of nursing school.

Are you considering a career in the healthcare industry? Most universities require students to pass prerequisite courses before applying to nursing and other healthcare-related programs. Marian's Adult Programs (MAP) at Marian University is your one-stop shop for all your prerequisite needs.

Learn Online.

Courses are fully online, so you will not need to take proctored tests. While each instructor may conduct their class differently, there are windows of time when you may complete exams, labs, and quizzes.

Choose Classes That Fit Your Schedule.

Online classes are either five or eight weeks in length, and students may take one or two at once. With 12 start dates a year, you'll find the class you need at the right time so that you can complete your prerequisites sooner.

Build a Strong Foundation.

Many institutions offer online courses, but with Marian University's long history, reputation for rigorous classes, and

engaged professors, you can feel confident in a solid foundation to help prepare you for the challenges of nursing school or other healthcare programs.

Continue Your Education.

While Marian University is accredited, each institution sets its own transfer credit policies. If you intend to earn your nursing degree at another college, we suggest speaking with your registrar or advisor before registering for our online prerequisites.

Getting started is easy. Call an advisor at 317.955.6271 or apply online at onlineprereqs.marian.edu.

“

My MAP classes were excellent preparation for getting into the nursing program.”
