

MARIAN UNIVERSITY
— Indianapolis —
Office of Graduate and Online Admission

**This is what great
online degrees
are made of.**

Choose a university that helps you take your career to the next level.

As the only Catholic university in Indianapolis, Marian University believes in and practices values that students of all faiths, creeds, and nationalities appreciate. Values like embracing those with diverse perspectives, cultural backgrounds, and dreams. And making the world a better place through leadership and service—because that’s what we are made of.

Marian University’s College of Graduate and Online Programs offers a range of associate, bachelor’s, master’s, and doctoral degrees for students who want to develop exceptional professional skills.

As you think about the education you need to take your career to the next level, think about the student experience you need to grow, both personally and intellectually.

Think about a university where you’ll learn from and collaborate with instructors who provide you with valuable, real-world experience and insights. Think about a campus culture that is warm and welcoming. And the type of graduate or online program that’s a good fit for your lifestyle and career goals.

Even though your classes are 100 percent online:

- At Marian University, you’re never alone. Our expert faculty guide and encourage you to stretch yourself and achieve more than you ever thought possible.
- Earning a degree at Marian isn’t easy. You’ll find a curriculum that is academically challenging. You’ll explore new ideas, work hard, and dig deep.
- Along the way, you’ll build relationships with mentors and peers who inspire you to reach new levels of professionalism—and you’ll learn how you can make a positive impact in your workplace and community.

Find out what we’re made of.

If you are ready to take your education and your career to the next level, contact us. Marian University offers challenging academic programs, but our faculty will support, guide, and encourage you every step of the way.

Marian students engage in high-impact, hands-on learning opportunities including internships and collaborative problem-solving with their peers, faculty, alumni, and leaders from the local community. When you graduate, you’ll be career-ready with the knowledge and leadership abilities you need to make a difference in your community.

Call or visit our historic, wooded campus located just minutes from the heart of downtown Indianapolis. Whether you’re interested in an online degree or a graduate degree, we’ll arrange for you to talk with advisors who will help you get started—including an evaluation of how your existing credits may transfer to one of our degree programs.

- To talk with an admission counselor, email GRadmissions@marian.edu or call 317.955.6128. Let’s discuss your career goals, academic options, and develop a plan to make your dreams a reality.

If you know you are ready to take the next step, apply online for admission at marian.edu/applynow.

Business Administration

ASSOCIATE AND BACHELOR'S DEGREES

You have the experience. Now earn the degree! There's never been a better time to continue your education and advance your career.

With Marian University's flexible, online business administration degrees, we make it easy for busy adults, like you, to balance work, family, and other responsibilities while attaining your educational goals. We'll help you fast-track your career with classes that last just five or eight weeks. And, because new classes start 12 times a year, you can pick the pace that best fits your schedule.

Build on the business experience you've acquired in the workplace and gain new knowledge through our innovative curriculum. With more knowledge and deeper insights into the business world, you can immediately apply what you learn in your own workplace, becoming a more valued, respected employee.

- Complete our 64-credit ABA coursework to earn your associate degree. You can then apply those credits and immediately begin working on your bachelor's degree when you are ready.
- Or, as a direct-entry BBA student, you will complete up to a total of 128 credit hours to graduate with your bachelor's degree.

Customize your degree by choosing concentration areas that match your career goals.

Core courses focus on helping you acquire practical, applied knowledge in accounting, statistics, business law, ethics, economics, and technology, among other subjects.

Concentration courses are designed to help you build professional skills including effective written and interpersonal communication, analytic, and organizational skills. You will also gain broad knowledge in subjects like psychology, sociology, and the arts.

Throughout the course of your studies, you'll gain real-world experience by developing solutions to common challenges in business and nonprofit settings. At the same time, you'll build and expand your professional network by interacting with faculty, business professionals, and your peers.

- Marian University partners with local organizations, businesses, sports teams, and other enterprises to provide you with opportunities to engage in high-impact, project-based learning as you meet course objectives.
- Take advantage of internship opportunities, designed for students who work full-time, with these program partners, including mentorship programs and job-shadowing options.
- Ask us how you can earn credit through special projects, completed via independent study, with our community partners.

➔ **Our experienced advisors will talk with you about how your existing credits may transfer to one of our degree programs.**

“Completing my bachelor's degree at Marian University was the best career decision I ever made. Not only did I gain a new level of self-confidence, business acumen, and professional poise, but my employer presented me with four different advancement opportunities within the organization after I graduated.”

- If you have less than 12 college credits: High school GPA of 2.30, GED score of at least 51; or passing TASC score.

* ABA students select one course only.

Health and Human Services

BACHELOR'S DEGREE

If you want to make a difference in the health and well-being of others but don't want to provide direct, hands-on patient care, Marian University's online Bachelor of Health and Human Services (BHHS) degree is the ideal fit.

Our evolving healthcare landscape increasingly requires professionals in a variety of roles to serve patients and ensure efficient, effective delivery of services.

Although there are similarities, HHS careers are different than those in public health or social work. HHS specialists use their knowledge to educate and serve others. Careers in health and human services go beyond individual care.

As an HHS graduate, you'll find many career options from which you can choose. In some positions, you will help coordinate service delivery, manage agencies, provide support services, or educate and improve the community. You may work individually or as a member of a team that could include healthcare providers, social service workers, and others. Because the career paths vary, so does the amount of responsibility, education, and supervision required for success.

Upon completion of the program, you can pursue employment opportunities like:

- Health educator
- Community health manager
- Population health coordinator
- Nonprofit program coordinator
- Quality improvement coordinator
- Health and wellness coordinator
- Workforce development counselor
- Administrative services manager

➔ marian.edu/healthandhumanservices

“After earning my degree, I was hand-picked by my company's president to participate in an executive leadership training program, which will give me invaluable organizational opportunities and insights. I have no doubt that earning a BHHS, combined with 20 years of IT experience, made all the difference.”

Paralegal Studies

ASSOCIATE DEGREE

Are you interested in a career change and fascinated by the legal profession? Consider becoming a paralegal or legal assistant and graduate with an online associate degree in 14 months.

Marian University's paralegal studies program prepares you to work in a variety of settings, including:

- Law firms
- Corporate legal departments
- Municipal, state, and federal government agencies
- Insurance and mortgage companies
- Banks and financial institutions
- Sports organizations

As a paralegal, you will help lawyers prepare for hearings, trials, lawsuits, and other activities related to the law. You'll conduct legal research, maintain, organize, and draft legal documents, and manage related functions. In addition, you'll utilize a variety of database and computer systems to search for records.

Marian's challenging curriculum will enable you to develop skills in writing, research, critical thinking, technology, and communication. You'll complete courses on subjects like the legal liability of contracts and torts, civil litigation, prelaw studies, professional responsibilities and ethics, and related legal topics.

- You will be assigned a mentor for guidance and encouragement as you complete your studies.
- Even if you live outside of Indiana, a guaranteed internship is built into our curriculum and is designed to be diverse and flexible to accommodate your busy schedule.

You can also choose a specific area of interest, like family, criminal, corporate, environmental, personal injury, healthcare, sports and entertainment, or international law on which to focus your studies.

In addition, you'll be instructed by professional attorneys and paralegals, so you'll receive a real-world perspective on the profession and have excellent opportunities to build your professional network.

➔ marian.edu/paralegalstudies

“Marian University's paralegal program is an amazing program for someone who wants to be a paralegal. But it's also a tremendous opportunity for any student who wants to have a strong legal foundation for working in any employment sector, including government.”
