# Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

## Enrollment and Program Completers

2023-24 Total	
Total Number of Individuals Enrolled	114
Subset of Program Completers	35

Gender	Total Enrolled	Subset of Program Completers
Male	25	3
Female	89	32
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0
Asian	6	0
Black or African American	10	4
Hispanic/Latino of any race	12	4
Native Hawaiian or Other Pacific Islander	0	0
White	85	27
Two or more races	0	0

Race/Ethnicity	Total Enrolled	Subset of Program Completers
No Race/Ethnicity Reported	1	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Academic Major

THIS PAGE INCLUDES:

>> Teachers Prepared by Subject Area

>> Teachers Prepared by Academic Major

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

☐

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(\\$205\(a\)\(1\)\(A\)\(iii\); \\$206\(b\)\)](#)

## Program Assurances

**Note:** This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

The Fred S. Klipsch Educators College at Marian University is able to successfully meet the assurances above by incorporating proficiency-driven activities that span all types of individuals including Special Needs, Differentiation, Age Developmental, Race, Culture, Class, Sexual Orientation, Religion, Language, Equity, Equality, Gender and Personal Attributes. Marian University teacher candidates are required to exhibit proficiency in developing curriculum, instructional strategies and assessment protocol relevant to teaching in diverse classrooms and promoting multicultural and transcultural education. Candidates are required to examine textbooks and other relevant written and digital materials for infusion and curriculum transformation in preparation for teaching competence in all settings. Candidates are required to establish a classroom climate and develop lesson plans that incorporate the needs of all students.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

If no, leave remaining questions for 2023-24 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

The EPP will maintain the preparation of three candidates to teach Special Education: Mild to Moderate Intervention.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year’s Goal (2024-25)

7. Is your program preparing teachers in special education in 2024-25? If no, leave the next question blank.

☒ Yes

☐ No

8. Describe your goal.

We will prepare a minimum of three teachers in special education.

## Set Next Year’s Goal (2025-26)

9. Will your program prepare teachers in special education in 2025-26? If no, leave the next question blank.

☒ Yes

☐ No

10. Describe your goal.

We will prepare a minimum of three teachers in special education.

# Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The Simulation Laboratory gives students a unique opportunity to face a real classroom (in avatar form) in a high tech way. This classroom experience can be customized depending on the level of education and the student has acquired throughout their time in the program. In order to prepare teachers to teach 21st-century students with 21st-century technologies, The Klipsch Educators College at Marian University provides a robust and well-rounded approach to preparing teachers. Not only is emphasis placed on teaching pre-service teachers how to utilize software applications for publishing, presenting, collaborating and communicating, research-based approaches are modeled and taught on how to best utilize technology to differentiate instruction for students with diverse learning needs. Productivity tools such as social bookmarking and screencasting are demonstrated and taught so that pre-service teachers remain current with regard to selecting and using digital tools best suited for the subject and grade level they will teach. Additionally, interactive whiteboards, iPads, and mobile devices provide opportunities for teachers to further engage students in the classroom. Just prior to Clinical Internship, teaching candidates must demonstrate their ability to plan for instruction and assessment using digital tools and applications. A technology-enhanced lesson (including assessing student learning with technology) is required in order for students to demonstrate competencies in leveraging educational technology to improve student learning outcomes. Integral to our approach in choosing and using educational technology with Marian teaching candidates is that software and digital tools are not the focus of their learning, but rather a means to expedite, enhance and engender the learning and assessment experience in their future classrooms. As blended learning and flipping the classroom gain momentum and optimize the learning experience in both face to face and online learning environments, a concerted effort has been made to integrate these tools more fully, and leverage their benefits throughout the campus. Capturing data and making data-informed decisions enable instructors and teaching candidates in the

Klipsch Educators College a means to organize, report and understand it from both a micro and macro view. MUHUB (our student information system), Canvas (our LMS), and Airtable (our data management system) and various other cloud-based applications facilitate the collection, analysis, and reporting of data that help measure and communicate progress on student learning outcomes. Together these data collecting technology tools provide a means whereby students can quickly and more efficiently have access to grades and feedback via formative and summative assessments. Finally, online surveys provide “just in time data” so that course design decisions can be made quickly for the next day, next week, or the following semester.

Provide the following information about your teacher preparation program.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

**a. Teach students with disabilities effectively**

All students in the KEC take an introductory course on special education, SPD 230. This course introduces all candidates to the different disabilities of their future students, teaching strategies to work with these students, and their role in IEP meetings. Beyond this, candidates have opportunities to think about classroom management strategies particularly for students with disabilities in terms of classroom design, grouping, behavior interventions, collaboration with families, and collaboration with special education staff in a classroom management course, EDU 446. Our simulation lab has scenarios for teaching students with different disabilities (I.e. Autism and learning disabilities) and gives candidates opportunities to practice teaching these students with special attention to accommodating for their needs to include them in a general education classroom.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

In SPD 230, all students participate in a role play of an IEP meeting where they learn about the different roles of individuals in these meetings, and get the opportunity to role play these different roles and reflect on them. Special attention is given to the role of the general education teacher, as this is the role the candidates will most likely fill in their career (assuming they complete the program and become general education teachers). A simulation lab scenario is used to focus on different portions of IEP case conferences, allowing our candidates to practice being in the role of a special education teacher.

**c. Effectively teach students who are limited English proficient.**

All teacher candidates in the Klipsch Educators College are prepared to teach limited English proficient students. Candidates in all programs are required to take a course which is focused on language acquisition, teaching students at various levels of language acquisition, and the effects of culture and acculturation on academic achievement. The courses which are specifically designed to teach this content are EDU 318 English Learners in Diverse & Inclusive Classrooms.

### 2. Does your program prepare special education teachers?

- ☒ Yes
- ☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

**a. Teach students with disabilities effectively**

Teach students with disabilities effectively: Our program places a high emphasis on our candidates blending practical knowledge with clinical placements along with classroom learning, theory and best practices. When candidates begin preparing to be special education teachers, they are in schools observing teachers and interacting with students with disabilities in their first year. This emphasis on clinical experiences carries throughout the entirety of the program with increased expectations in hours and amount of teaching as candidates progress. These clinical experiences vary in type of placement (i.e. resource room, inclusive settings, and self-contained classrooms) as well as the age of the students served since our

candidates are earning a P-12 mild intervention license. Candidates share their experiences in schools and use the classroom to build upon what they are learning in the field, and to educate them on best practices for teaching students with disabilities and additional opportunities to practice in the simulation lab and in practice sessions with their fellow candidates. Courses throughout the program focus upon assessment, methods of instruction, program management, lesson planning, transition, behavior management, and collaboration, all for students with disabilities. After completing this, candidates can complete a traditional semester long clinical internship in special education or opt for a master's program with a year long teaching residency where they will work with a master teacher and have the opportunity to teach students with disabilities.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

At different points throughout the program, candidates are required to attend IEP meetings as an observer. This requires candidates to communicate with mentor teachers in their clinical placements about this, and seek consent from the parent/guardian to attend their child's IEP meeting. In addition to this, candidates learn about the entire evaluation and IEP process in their first special education course, and this is reinforced throughout the program. An IEP meeting simulation is being created where candidates can practice running an IEP meeting and working with all the corresponding team members. Candidates have to write different aspects of an IEP throughout the program, with an emphasis on writing the Present Levels of Academic Achievement and Functional Performance, goals, a Functional Behavior Assessment (FBA), Behavior Intervention Plan (BIP), transition plan, accommodations, and candidates have to write an entire IEP. Based on feedback from candidates, we will be using the state of Indiana's training site for their IEP system to allow candidates to practice writing an IEP in the Indiana system.

**c. Effectively teach students who are limited English proficient.**

All teacher candidates in the Klipsch Educators College are prepared to teach limited English proficient students. Candidates in all programs are required to take a course which is focused on language acquisition, teaching students at various levels of language acquisition, and the effects of culture and acculturation on academic achievement. The courses which are specifically designed to teach this content are EDU 318 English Learners in Diverse & Inclusive Classrooms.
