

ALEKS PLACEMENT TESTING: INTERPRETING YOUR RESULTS

Math test score	Course recommendation	Noncourse equivalency in MUHUB (not credit, allows registration)
0-54	MAT-095	MAT-095P
Students scoring in the range above (0-25) <u>must</u> complete the required developmental course before taking one of the general education courses below. According to the Marian Academic Catalogue, the developmental course should be taken in the first semester and a grade of C or above is required to continue. Students scoring in the ranges below (26+) may choose one from the following courses as deemed appropriate by their discipline (major), background, and interest. Their advisor will guide them in this decision.		
55-69	MAT-145	MAT-GENP
70 or higher	MAT-230	MAT-GENP MAT- 230P

ATTENTION ADVISORS: If there is a question about a student's placement, consult with the Chair of the Department of Mathematical & Computational Sciences **BEFORE** making any changes or substitutions, as they will evaluate the request and indicate whether another placement would be advisable.
